STATINTL The [ ] Image Correlator was discussed with [ ]  
STATINTL All the component parts are now in hand and the main optical train  
was undergoing a bench test. [ ] stated that work on this  
machine was put aside in order to complete work on a higher priority  
task. The monitor was not aware of this, but assumed that it was  
discussed when the Chief, TP&DS visited [ ] some weeks previously.  
STATINTL [ ] (Washington Office) will contact the monitor when the Correlator  
is further advanced in assembly for testing.
